

Mini-Compressor License

All rights to Mini-Compressor (hereafter, the Software) are owned by Saturday Morning Productions (hereafter, the Company). Installing and using the Software assumes you (hereafter, the Customer), have read and accepted the license terms. If you don't agree with the terms you must stop using the Software.

1. The Software license has different restrictions depending on if the Customer is an individual or a business. In both cases the granted licenses are non-transferable. The differences are:

a. Individual Non-commercial Use

Purchasing one license of the Software allows the Customer to install and use the Software on as many computers the Customer owns. In addition the Software can be used by the Customer and all people living in the same residence as the Customer.

b. Business Commercial Use

Purchasing one license of the Software allows one individual in the Customers business to install and use the Software on one computer. Additional licenses are required for each additional individual that wants to use the Software or to install the Software on additional computers.

2. The Customer is entitled to full refund, upon request, within 30 days of purchasing a license to the Software. Once the refund is received by the Customer the license is terminated and the Customer must uninstall and stop using the Software.

3. The Customer uses the Software at their own risk. Although the Company does its best to ensure the Software is defect-free, it, unfortunately can't guarantee that it is. The Software is sold as is without any warranty. The Company is not responsible for any losses or damages from using the Software.
